“WE LOOK FORWARD TO MEETING YOU”

EARN WHILE YOU LEARN WITH REAL JOBS AND HIGH QUALITY TRAINING

- Are you aged 16-18?
- Do you want a career in Engineering?
- Are you motivated and keen to learn?

If you can answer **YES** to the above then talk to **LEMA** about the opportunities available.

The LEMA Apprenticeship Engineering Programme

An exciting, flexible and varied approach to Learning

The LEMA Apprenticeship Programme offers a unique and flexible approach to learning, balancing employment with academy attendance to provide outstanding opportunities to learn new skills and fully prepare apprentices for the world of work in Engineering.

If you are inspired by the thought of a career in engineering and manufacturing and want a job with excellent career prospects, the LEMA apprenticeship could be for you.

The LEMA Apprenticeship is available to anyone aged 16 to 18 years, subject to minimum entry requirements and provides progression from Level 2 to Level 3 with an intensive foundation phase.

Engineering your future

“Brilliant support from staff, who are always there to help and have got me the achievements that I expected.”

Luke Newell
